Career Objective

Motivated Data Science student with strong knowledge of Python, Java, MERN Stack, and Machine Learning. Passionate about developing scalable web applications and intelligent systems. Seeking an opportunity to apply technical skills while continuously learning and contributing to organizational success.

Education

B.Tech in Data Science 2024 – 2027
Chalapathi Institute of Technology

Diploma in Computer Science and Engineering 2021 – 2024
Government Polytechnic for Women, Medak
Percentage: 87%

Technical Skills

- **Programming Languages:** Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Frameworks:** React, Express
- **Tools:** Git, GitHub, VS Code, Postman
- **Operating Systems:** Windows, Linux

Projects

Breast Cancer Detection System (MERN Stack)

- Developed a web application to predict breast cancer using patient medical data.
- Built responsive frontend using React.js and backend APIs using Node.js and Express.js.
- Stored patient records and prediction history in MongoDB with an interactive dashboard.

Placement Management System (MERN Stack)

- Developed a placement portal for managing student records and recruitment details.
- Implemented student registration, login, dashboard, and CRUD operations.
- Used MongoDB for secure data storage and React.js for responsive user interfaces.

Strengths

- Problem Solving
- Team Collaboration
- Time Management
- Communication Skills

Certifications

- Cloud Computing(NPTEL)
- Internet of Things(NPTEL)
